## 2014 Hawaiian Luau

A Myanmar child waiting for  
care

## Aloha,

Since 2005, WHA has brought medical and dental care to underserved populations in some of the poorest areas of the world. World Health Ambassador, a 501(c)(3) tax exempt organization, was established in 2005 with a mission of collaborating with both local and national groups to serve the health of global communities through effective, innovative, and sustainable programs. WHA delivers quality medical and dental relief operations to countries and populations in need through effective collaboration with other governmental, non-governmental, academic and local health professionals to enhance quality of living.

Our missions have taken us to many remote villages and clinics in Laos, Vietnam, and Cambodia. During the past year, we provided care for the following countries:

- April 2014 - More than 3,000 Myanmar patients in Taunggyi and Nay Pyi Taw
- December 2013, Exiled Tibetan monks at Sera Mey monastery in Bangalore, India
- October 2013, Orphanage and geriatric psychiatric home in Phan Thiet, Vietnam

Each WHA mission is staffed by both general and medical specialists who are equipped with advance medical and dental equipment to provide in-depth examinations and treatments. Wherever the mission leads us, WHA teams bring medical expertise, education, and hope. These volunteer professionals provide their personal time and pay for all the expenses associated with the missions out of their own pockets, allowing WHA to direct its resources to providing quality medical care to those we serve.

You will find our Sponsorship Package outlining various levels of support. All questions regarding sponsorship opportunities can be directed to Hong Pham at (703) 969 4479 or [hongdpham@yahoo.com](mailto:hongdpham@yahoo.com). Your consideration to supporting our work is greatly appreciated.

Sincerely,

*ThienDo*

Thien M. Do, M.D., F.A.C.C.  
WHA President
